Dear Mr Seaman

HAVANT BOROUGH COUNCIL COMMUNITY INFRASTRUCTURE LEVY (CIL) DRAFT CHARGING SCHEDULE EXAMINATION

Further to my letter dated 28 July 2021, sent in response to your questions of 19 July 2021, I write to submit a further piece of information. I consider it to be of relevance to your question regarding consultation.

I had not originally included it, as it is on our CIL Charging Schedule Review webpage and I assumed that you were already aware of it. However, since the content of the webpage does not formally form part of the information submitted to you, this may not in fact be the case.

I should like to draw your attention to the fact that the Council prepared a Preliminary Draft Charging Schedule and undertook extensive consultation on it. A report was prepared to summarise the consultation methods and responses received, in advance of the Regulation 16 consultation. It is entitled [Preliminary Draft Charging Schedule consultation responses](#) and may be accessed directly via this link, or can be found at www.havant.gov.uk/community-infrastructure-charging-schedule-review.

While it is noted that the regulations no longer require the preparation of a Preliminary Draft Charging Schedule, I nevertheless wanted you to be aware that stage took place, since it gives a fuller picture of the Council's background work and consultation than the documents so far submitted.

Yours sincerely

Jacqueline Boulter

J. Boulter
